...

\$250K is nice but it would have been more helpful to know about it in Feb instead of 4 weeks before expires.

So you can't roll it over? It has to be obligated by 6/30?

I will think about it and let you know.

Thanks for the offer!!

Thanks,
Jeryl

I would say use it for OU8 remedial design? Do you have any standing contracts that you can add some scope to? You can use it for remedial design oversight technical assistance.

Subject: Anaconda Funding Available

Last year Washington Office asked me if I could use \$250K funding for Anaconda, and of course I said yes, because I never turn down free money. I received the money in February and I need to spend by the end of June before they take it back from me. Do either of you have any contract work, invoice, or something that BLM might be obligated to pay for that I can justify spending the \$250K on? It would be

great if I can spend it on OU-8's RI/FS, Proposed Plan, ROD, remedial design, or something along those lines in the next couple of weeks before they take back the cash. Any ideas are welcome!

Thanks,
